Computer science, statistics, and law

Microsoft

2024 · Cybersecurity Analyst Certification

Nakuru High School

2018 – 2022

LANGUAGES

English — Proficient
Kiswahili — Proficient

SUMMARY

Full stack web developer with hands-on experience building complete applications end to end — React/Vite frontends, Node/Express and Python (FastAPI) backends, and system-level integrations. Self-driven builder who has independently shipped multiple full-stack products, from an AI assistant platform to a desktop content-blocking app with a custom backend. Strong foundation in computer science, statistics, and problem-solving, with close attention to detail and reliable delivery.

PERSONAL PROJECTS

Aura — AI Virtual Assistant

React/Vite + Express

- Built a full-stack AI assistant platform with a React/Vite frontend and an Express backend.
- Implemented voice cloning using the MediaRecorder API, plus integrated web search and a deep research mode.
- Added AI image generation by integrating the Pollinations.ai API (Still in development).

Resolve(formerly Guardly) — Content-Blocking Commitment App

Python (FastAPI) + React/JavaScript

- Designed and built a full-stack cross-platform (Windows/Linux) application end to end, from backend architecture to UI.
- Built the backend with FastAPI and SQLite, including a DNS proxy and system-level integration for a tamper-resistant watchdog.
- Developed a polished dark-themed dashboard frontend and rehabilitation features (urge surfing, box breathing, mood journaling, a Recovery tab).

Knowledge Hub — Author Website & Publishing Platform

React + Vite, deployed on Vercel

- Built a full author website from scratch with a custom dark-gold visual design, deployed on Vercel.
- Supported the brand's ebook publishing work and produced promotional media assets. Development is still underway.

EXPERIENCE

Attache — Huduma Center Kenya, Eldoret

Jun 2025 – Aug 2026

- Assisted citizens with opening SHA accounts, adding dependants, and completing payments, translating technical processes into clear guidance for end users.
- Communicated the importance of SHA account activation to the public, developing strong user-facing communication skills.

Attache — Godan Programme for Capacity Development

May 2023 – Aug 2023

- Learned and applied React while working under Derrick Ngigi.
- Collaborated with fellow attaches to build a website for the organization as part of a team.
- Practiced graphic design and data entry/management using Excel spreadsheets.

Volunteer — The Metropolitan Hospital, Nairobi

Aug 2017 – Sep 2017

- Maintained sanitary standards in the hospital's laundry department, operating washing, drying, and ironing equipment.

Volunteer — The Kenya National Library Service

Apr 2017 – May 2017

- Kept library facilities clean and organized through regular shelving and re-categorization, improving the user experience.
